

*452 – EZ’s EPS Workshop (Item 14032)

This project is worked in the round, so the gauge swatch must also be worked in the round! It is critical to the success of this project that you do NOT SKIMP on your gauge swatch!

Cast on AT LEAST 75 stitches and join into a round.

Work on these stitches in the stitch pattern you would like to use in your sweater until the swatch measures AT LEAST 5” in length.

DO NOT SKIMP!
