

591 Yvonne

Cast on as indicated in the pattern using a cotton waste yarn (this yarn will be removed in class). Work the racer back as indicated. When the piece measures 4" in length, check your gauge for 20stitches = 4" in width. If the gauge is accurate, complete the racer back as directed in the pattern. If your gauge is off, adjust needle size and work the racer back again.

Make sure to work the racer section to length - we will begin class at the section for armhole cast on..
